

Die Prinz Wolfgang PW 101

is Royal Highness Prinz Wolfgang von Bayern's timepiece model PW101 is manufactured in the tradition of the heirloom timepieces of the Bavarian rulers and kings. The beauty and complexity of the hand-guilloched dial and the hand-engraved movement capture the discerning

enthusiast's eye. The masterpiece model PW101 combines the treasured craftsmanship of bygone days with the high expectations of today's watch collectors.

This exclusive timepiece is powered by the automatic calibre W100 developed on the basis of a pocket-watch calibre using an automatic module with a solid 18 carat gold rotor. The exquisite handcrafted finish of all parts as well as the impeccable level of quality set a new standard altogether.

The exquisite handcrafted finish of all parts as well as the impeccable level of quality set a new standard altogether.

The timepiece model PW101 is manufactured in a limited edition of 10 timepieces only. The client may opt for modifications of the choice materials used, the decor of the timepiece or the watch strap.

Possible modifications would be the use of diamonds on dial, strap or bezel as well as cases in platinum or white gold and monograms and engravings.

Based on the principles defined by the outstanding watchmakers of the past, manufactured with the utmost precision and completed with a vision of perfection the model PW101 is truly one of the most beautiful timepieces of present day a masterpiece in finish as well as aesthetics.
